CSE 5/7347

HW 10 - Final Assignment

There will be a final assignment "project" that will be worth 3 regular assignments.

Devise an application around at least two XML technologies that showcase your expertise sand that go beyond what we have covered in class. Options include (but not limited to)

- XSLT 2.0 (Advanced)
- XQUERY (Advanced)
- SVG
- Voice XML (Advanced)
- DOM (advanced)
- Semantic Web (RDF/N3)
- RSS processing
- XML Security

Prepare a one page overview of your application that includes the technologies you plan to use. Due: April 12

Final project is due on the last class May 3 when we will have short 8 minute presentations. Distance students in the area should plan on presenting in class on May 3. Other distance students may submit a video prior to May 3 for viewing in class OR prepare a written report of their project effort (2-5 pages).
